

13.2a Verdoppeln

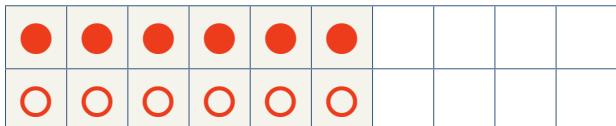

„Verdoppeln“ ist also nur ein anderes Wort für „zweimal nehmen“. Welche Verdoppelungen kann man hier sehen?

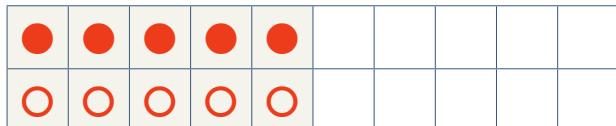

$$7 + 7 = \underline{2} \cdot 7$$

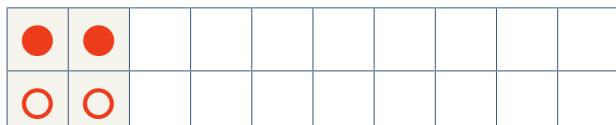

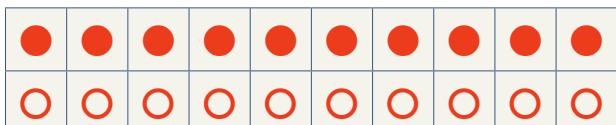

$$3 + 3 = \underline{2} \cdot \underline{3}$$

$$\underline{6} + \underline{6} = \underline{2} \cdot \underline{6}$$

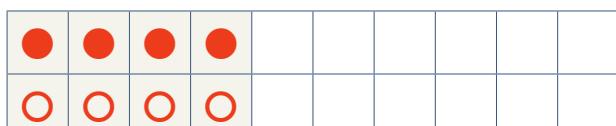

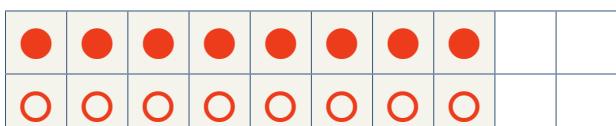

$$\underline{5} + \underline{5} = \underline{2} \cdot \underline{5}$$

$$\underline{10} + \underline{10} = \underline{2} \cdot \underline{10}$$

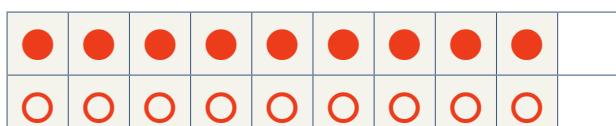

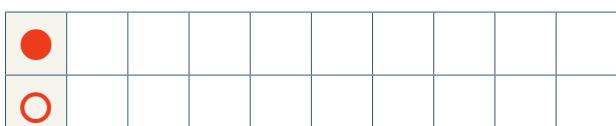

$$\underline{2} + \underline{2} = \underline{2} \cdot \underline{2}$$

$$\underline{8} + \underline{8} = \underline{2} \cdot \underline{8}$$

$$\underline{4} + \underline{4} = \underline{2} \cdot \underline{4}$$

$$\underline{1} + \underline{1} = \underline{2} \cdot \underline{1}$$

$$\underline{9} + \underline{9} = \underline{2} \cdot \underline{9}$$
